

A MESSAGE FOR THE NEW YEAR

SEMINAR OF CHIROPRACTIC
P.O. BOX 46 PHONE 608-437-5585

Dear Doctor:

A strong chiropractic profession has never been closer to reality. But the tests of our strength are not over. Increasingly, legislation is being passed so that more people can benefit from chiropractic care; and the people are responding to their newly gained privileges. Along with this greater acceptance comes greater responsibility. Patients are keen judges; they fought for chiropractic legislation because they believe in what chiropractic can do. Now it is up to the chiropractor to perform.

The only chiropractic that will stand the test of public acceptance is chiropractic that gets results; calculated, scientific results that can be repeated and documented.

From my vantage point of 50 years in practice, I offer you what I consider three of the most important areas that will influence your results. First: SPEND ALL THE TIME NECESSARY to carefully and precisely find and correct a patient's problem. Do not be in a hurry. Check and recheck your X-ray, your palpation, instrumentation, motion palpation and visualization. Second: Remember that chiropractic always works; when it does not seem to, examine your application, but do not question the principle. And third: Be prepared when demand for chiropractic care increases. Study the spinal column and the nervous system every chance you get.

In chiropractic our big chance is coming, but we will have to justify the public faith. And, we shall; our future will be our results. In my work, as in my thinking, I advise that we build a solid foundation.

Wishing each of you a year of enrichment.

C. S. Gonstead, D.C.

GONSTEAD SEMINAR SCHEDULE 1974

February 15-17..... Mount Horeb
(Lab. Course, Friday evening, the 15th)
March 22-24..... Mount Horeb
